LITERARY NOTES.

The last volume of Mr. George Bancroft's . History of the United States " will be ready before the

end of the year. Mr. Parke Godwin during his summer sojourn at Cummington, Mass., has been writing a memoir of his father-in-law William Callen Bryant.

Mr. John R. G. Hassard has written an ar ticle for Scribner's Monthly on the local operatic stage The magazine will make more of a feature, hereafter, of music, art and the drama. The Putnams have ready Professor John

S. Kedney's text-book in asthetics, "The Beautiful and the Sublime," and "The Harvest of Years," a story of experience in the investigation of spiritualism by M. L. B. Ewell. M. Lecocq, the composer of comic opera, is

a diligent collector of old books, and has a special fondness for editions of Rubelats. Next to his music and his library he is interested in the musical education of a pet Macmillan & Co. have conferred a favor on

their patrons by publishing a convenient catalogue with index, of their books and of the works issued by the Oxford Clarendon Press and the Cambridge Univer-sity Press, of which they are agents.

Ingram's "Edgar Allan Poe; His Life, Letters and Opinions" (Cassell, Petter, Gaipin & Co.), will appear in a few days, on this side the water. It is a bulky work, two volumes, forming together 606 pages, and contains portraits of Poe and his mother.

"Sister and Saint" (A. D. F. Randolph & Co.), is a study of the life of Pascal's sister Jacqueline, the num of Port Royal. It will soon be ready, and con tains a great deal of matter not included in previous English accounts of this interesting character.

"Latin and Greek as in Rome and Athens," is a recent London book, by the Rev. Francis M. Wynd bam, who arges that the sounds of the modern languages spoken in Greece and Italy should be applied in the class-room to the promuciation of the "dead" lan-guages. He urges that if the study of Greek and Latin is to be successfully kept up at the present day, school masters must face the trouble of unlearning a good deal of their present methods, and treating the languages of their present methods, and treating the languages more like living ones. The Pall Mall Guzette says: "We have not heard of any attempt to reconstruct the probable classical pronunciation, save in the United States-where a sort of provisional scheme has been widely, ado pted. If we are not mistaken, the English pronunciation of Latin is equally dead or dying in America. Therefore, the general result is that, although not more chargeable with negligence or harbarism than other people as to the origin of our present state, we practically stand alone, and are in danger of finding ourselves separated from net only Continental but other English-speaking scholars."

MINES AND MINING.

FRIDAY, Oct. 1-P. M. The mining share markets to-day were dull and generally weak, in marked contrast with the activity of yesterday. The business done in Chrysolite was unusually small and within narrow fluctuaions, the closing figures at 4.05 showing a loss of 5 cents. Little Chief recovered from 58 to 64@63 cents, but Amie declined from 60@62 to 57 cents. Climax recovered to 1.20 and afterward sold at 1.05 against 1.10 yesterday, and South Hite fell from 99 to 90 cents. Hukill was active and fluctuating. rising to 2.10 and later selling at 1.85@1.90 against 1.95 yesterday. The Comstock shares were about steady within a range of 5 cents. Battle Creek further yielded to 2.80. Among the low-priced shares ther yielded to 2.80. Among the low-priced shares Silver Nugget was as active as usual, but it declined from 51 to 46 cents, Goodshaw was noticeably weak, with sales down to 46 cents, Gold Placer was 1 cent easier at 74 cents, Moose 1 cent lower at 32@33 cents, Buckeye 1 cent lower at 18 cents, Great Eastern 2 cents lower at 53 cents, Calaveras being 1 cent higher at 34 cents. The business done in the high-priced stocks was to about the usual amount, but without any material changes in prices. The markets closed material changes in prices. The markets closed dull and generally weak.

IBY TELEGRAPH TO THE TRIBUNE! SAN FRANCISCO, Oct. 1.—The steady improvement in Southern Arizona mines as depth is attained is inqueing a large number of California as well as Easiern capitalists to visit them with the intention of making permanent investments in that locality. A party of New-Yorkers, consisting of Judge Schley and other directors of the Altamine, of Harshaw District, left here yesterday, accompanied by B. B. Minor, to examine this and other properties. An official letter from the Contention, of Tombstone, says that in the north drift on the 212 level. ter from the Contention, of l'ombstone, says that in the north drift on the 212 level, 365 feet north of the shaft, a vein three feet wide was opened on the 26th, with average assays of \$280 per ton. On Monday last it widened to four feet, with average assays of \$1.172. The market here to-day for Comstocks has been heavy, with incht transactions. Bullion was quoted to-day assessment \$1 delingment.

incht transactions. Ballion was quoted to-day assessment \$1 delinquent.

Salt Lake, Utah, Oct. 1.—The bullion yield for the week ended vestering was as follows: Iwo bars Christy, \$4,924-29; eight bars Thorte, \$5,301-91; twenty-four bars Ontario, \$35,389-55; total, \$45,615-75. Base bullion: 9 cars Horn Silver, \$22,500: 10 cars Germania, 3 cars Morgan, 1 car Brooks, 8 cars Frisco; and four reflued bars Stormont; value, \$55,260.

Bullion receipts in New-York yesterday from the mines, \$27,690-16.

The following in reference to the Shaughnessy-Ontario suit is from The Salt Lake Tribune of September 26:

tember 26:
There is a well-founded rumor that the affairs between the Henrietta and Ontario have been settled. By the compromise Colonel Shaughnessy is said to receive \$200,000 and 10,000 shares of stock in a company to be organized and to own the Henrietta, Great Fastern, Union Tunnel and Banner properties.

\$200 000 and 10.000 shares of stock in a company to be organized and to own the Heuretta, Great Fastern, Union Tunnet and Bainer properties.

Ex-Governor A. P., K. Safford, of Arizona, refinined to the city yesterday, after an absence of nearly three months, during which time he has visited all the principal mining districts of Arizona, as well as many of the inners of California and Nevada. A reporter of The Tribuna called at the Governor's effice, and found him quite wilhing to talk, although hardly recovered from a recent attack of inalarial fever. The following is a summary of the interview: After the war, in consequence of the hostifities of the Indians and high transportation, it seemed impossible to start mining enterprises in Arizona with any success, until the approach of the Southern Pacific Rairoad, which has now been completed through the Ferritory and already extended through New Mexico, with a fair prospect of connecting with the Atchison, Topeka and Santa Fé Road by the 1st of January. Taking courage from the subjugation of the Indians and the facilities for transportation, about three years ago capital again began to seek investment in Arizona, with a result that has been entirely satisfactory to investors and of great advantage to the Territory. The population has increased to about 40,000 people, and is rappoly increasing. The capital so far invested in the country has been dentirely earlistactory to investors and the investments have proved reminerative and satisfactory. Already a large number of companies are paying dividends and many more will commence as soon as the requisite machinery is put in active operation. The most noted at the present time is the Tombestone District, which is located in the southeastern portion of Arizona, about thirty miles north of the Mexicas line. This district was discovered two years ago last March, and the locators, instead of endeavoring to self their mines invited capitalists to associate with them and assist in developing them. The result has proved in th month divisionds, with large ore reserves and a large reserve in the treasory. The company expects to increase the divider-ds to \$1 per share by the 1st of Janusry. The Tembstone Company is paying \$50,000 per month dividends under equally favorable conditions. The Grand Central is creating a large mill, and will soon become a dividend saying mine. The Head Centre is now preven to be a very valuable property, and the company contemplate soon erecting machinery that will place that upon a dividend-paying basis. There are many other deserving properties in this district that are being prudently and properly developed, and which will soon yield large returns to the owners. A prosperous town has been built, having already WM. ANDREWS, JR. Seretary.

extensively, also visiting the Comstock. I had an interview with Mr. Mackey, who has charge and is one of the principal owners of the mines located on the Comstock Lode, and he is hopeful of yet discovering new bonanzas in the Comstock. He says that the conditions down at the lowest depths are as favorable for striking a new bonanza as they ever have been at any point in the Comstock; that he is putting in personally, large sums of money, and fully believe in ultimate success. While times are very dull in Virginia City, the general feeling there is much the same as that expressed by Mr. Mackey. While vast sums of money have been lost in the manipulating of stocks upon the Comstock Lode, careful estimates show that so iar as the proposition of legitimate mining upon that lode is concerned, all the money expended in the development of the Comstock into has been paid back with the average interest of 18 per cent per annum profit.

mine has been paid back with the average interest of 18 per cent per annun profit.

I travelled through the southern portion of Nevada, and visited the mining districts of Candelara, Grantville and Austin. In the former district is located the Northern Belle, which has been celebrated for the regularity of its dividends. There is a large number of promising locations in this district, but the facilities for working the ore are very poor; water for steam and domestic large number of promising locations in this district, but the facilities for working the ore are very poor; water for steam and domestic purposes commands from 4 to 5 cents per gallon, and wood \$18 per cord; and notwithstanding these great disadvantages, the Northern Belle has taken out over \$6,000,000, and has naid a profit to the stockholders of about \$2,000,000. At Grantville is located one of the largest quartz mines in the States; in fact, it is a mountain of ore, and the company is now operating a 40-stamp mill. The grade of the ore is quite low, but the facilities for economically working it are such that it is believed the ore will pay a fair profit. The mines at Austin are among the oldest discoveries in the state next to the Comstock. The ore is found in narrow veins, but of a very rich quality. Large reduction works have been creeted where, and the company have adopted the cooperative system of working the mines and reducing the ores—that is to say, they contract with miners to take out the ore at their own risk and expense, and then the ore at their own risk and expense, and then the ore is reduced on shares, giving to the miners one-half, one-half being retained for the reduction works. This has proved the most successful and economical way of conducting mining enterprises. It is estimated that these mines have produced, since their discovery, over \$30,000,000. A narrow gauge road has been built from the Central Pacific to Austin, a distance of 96 miles, which is adding much to the preservity of this section of the country.

been built from the Central Pacific to Austin, a distince of 96 miles, which is adding much to the
presperity of this section of the country.

After looking over the mining sections that
I have visited I am fully satisfied that the
mining industries of the country are coming down
to a firmer and better basis than ever before, and
that the time is fast approaching when Eastern
capital can invest in mining enterprises with as
much certainty as in any other.

Although the business done in stocks to-day amounted only to 230 900 shares against 296,400 shares yesterday and 277,500 shares Wednesday, the tone of the market was strong all the way out, subject to one or two immaterial reactions. Immediately after the opening there was observable some nervousness as to the staying power of the market, and Lake Shore was noticeably weak, with sales down to 1073g; and some other stocks fell off 14@12 per cent. But this was quickly remedied by a judicious distribution of orders to buy, and Lake Shore afterward sold up to 10834. The notably strong stocks, however, were Northwest, which rose to 1054, St. Post up to 9214, and New-Jersey Central with a leap from 72% to 7412, and Reading, which sold up to 3012. Of course no one pretends that the prices for the two last named stocks have any other basis than that of pure speculation. The first-named stock-New-Jersey Central-follows an indebtedness of the company that amounts to more than \$360,000 per mile of road; and the second-named stock—Reading—is admitted to follow behind so large an indebtedness that the junior mort-gage bonds of the company are unsalable at less 1 The following is the comparative statement of

than the present price of the stock. Generally the market, while seemingly strong, "mussy," if we may use the word was: that will best indicate the true condition, "Bears" of Monday are now rampant "bulls," but that class of operators is so nearly full of stocks that its members already are beginning to look for the higher price crowd to take the stocks off their hands at a profit. They are discouraged with a decline of 4 per cent and jubilant over a rise of 1s per cent. Prices generally closed close up to the best of the day, but at the very end there were reactions of 4 per cent for some of the most active stocks, yet the market closed strong but dull.

Government bonds were weak, with a business at the Boards that amounted to \$173,500. The final bids show declines as follows: 6s of 1880 and 1881 each 18, 4129 58, and 4s 12 per cent. Annexed are the closing quotations:

the closing quotations:

10.8. 6s '80, reg... 102 's 102 's 102 's 10.8. 4s 1907, reg... 107 's 108 *Ex interest.

State bonds were dull, the sales covering only Tennessee 6s old at 37, and North Carolina 6s new, to Chatham Rathroad, at 3. Louisiana consols are quoted 48@4834. Of city bank stocks, State sold (5) at 113 and Market (30) at 121.

Railroad bonds generally were quiet and steady, but there were two or three exceptions where the demand advanced the prices of some of the favorite speculative issues and of those issues which are gradually being absorbed for investments. Erie second consols after selling up to 891s closed at 89. an advance of 14 per cent, and the funded 5s rose from 8312 to 84. Missouri, Kansas and Texas first consols sold at 1071s, and seconds again rose to 651s, finally selling at 6414 Lehigh and Wilkesbarre consols opened down 78 per cent at 9518, but later rose to 9612. This was in sympathy with the operations in Central of New-Jersey stock. A good demand for Mobile and Ohio first debentures advanced their price to 83, later sales being at 8212. and the second debentures rose to 52. St. Louis and Iron Mountain second incomes sold at 76 ex interest of 712 per cent. Metropolitan firsts were strong, with an advance to 1027s. Denver and Rio Grande firsts sold at 10812@10814, and consols were 34 lower at 9734.

The business of the Sub-Treasury for the week ending to-night includes the receipt of \$9,079,524 and payment of \$12,832,798, resulting in a loss to the general balance of \$3,753,274, and leaving it at \$82,184,629 against \$85,937,903 September 24. The particular changes of the week are a coin loss of \$3,224,702 and a currency loss of \$528,572. The local money market remains easy at 212 and 3 per cent, but at the close to-day money was in fair demand at the highest named rate. The domestic exchanges on New-York at the places named are quoted as follows: Savannah, \$\frac{3}{2}\frac{1}{2}\$ discount; Charleston, \$\gamma_{16}\$ discount to par; New-Orleans, \$\gamma_{2}\$ per \$\frac{3}{1}.000\$ discount to par; St. Louis, \$\gamma_{16}\$ discount; Chicago, \$0\pi_{7}\$ cents discount; Beston, \$0\$ cents discount. The United States Treasurer at Washington to-day received \$140,000 in National bank notes for redemption. The customs receipts were \$650,000, and the internal revenue receipts were \$440,000. The following is the Clearing House statement to-day: Exchanges, \$112,545,241; balances, \$6,016,804. The transactions at the Subtreasury covered: Receipts, \$1,084,437; payments, \$3,199,036; currency balance, \$5,427,172; coin balance, \$76,757,457. cent, but at the close to-day money was in fair de-

* Circulation of National Gold Banks, not included in the above, \$1,325,060.

The foreign exchanges are excessively dull, and because of that, rates are weak. But the quotations remain unchanged as follows: Frime aconomy shorting onto | 87 days | 6 days | on London | 64 81 | 64 81 | 5 4 85 | 74 84 84 | Good cambers' and prime con | 4 81 | 64 81 | 5 4 85 | 74 84 84 | Good cambers' and prime con | 4 80 | 74 81 | 4 83 | 74 84 84 | 6 600 | 6 7 8 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8 1 | 74 8

The gross earnings of the following rathroads are INTERNATIONAL AND GREAT NORTHERN.

ST. PAUL, MINNEAPOLIS AND MANIFORA. Third week in Sept.\$51,402 \$70,800 Inc. \$18,697
